JWF News extra 2 issued 15 July 2006: Japan Water Forum

Ryutaro Hashimoto was passing by the President

Oda Shigeru chapter Secretary General, Japan Water Forum ago

Ryutaro Hashimoto, chairman yesterday (July 1) at 2 pm, was first hospitalized at a hospital death. And to pray for the souls, I notice on謹N here.

Fold that come to the funeral home, our home was a silent happened. Welcome at the door, I mentioned a final farewell. Ryutaro Hashimoto会長RASHII indeed, the individual is婦RA, DEGOZAIMASHITA SHIMI入RU back to mind the simple and solemn.

Chairman, Jan. 10 is scheduled for Sunday, "Advisory Board on Water and Sanitation," Article 6 and that was very concerned to attend the meeting, while other world gone to meet his maker in the world water issues and efforts to end was. Even in the world

to live by, we are confident that the guidance available to us必ZUYA unchanged.

Given the third of March was appointed Chairman of the Third World Water Forum in 1912 and later received a six-year guidance and enthusiastic all the time. At the Earth Summit in Johannesburg have been deeply encouraged叱咤us incompetent. There has to love the president's third World Water Forum "to fix the water problem in the world, a big step in creating a new trend" of the world and led to the evaluation.

After the forum, I have been waiting for more hard work. "Advisory Board on Water and Sanitation" for his role as chairman, was based on a direct request from the UN Secretary General Kofi Annan. Results of the activity is "your behavior, our actions are" in the form of a取RI纏ME Fourth World has been released from the mouth of the president himself in the Third World Water Forum. In addition, folding was handed directly to the Secretary-General Kofi Annan visited Japan recently, it was happening and were just taking collection action based on this action now. The shame is not sudden death of reason.

Moreover, the process came from the Fourth World Water Forum preparations for the "Asia-Pacific Water Forum" about ordinary people's determination could have a grave. China, India and to the proper channel is already in and he was also working. I引KI繼GOU for the next generation and the Secretary General of the Japan Water Forum, "the adviser, chairman of Stop" in the instructions with your受KE止MEMASHITA and because of this theme. Therefore now lost its chairman, only to自失茫然. The President himself has indicated, however, this remains a mold that never giving up for the world can not solve water problems. Only to walk on his chest.
