

TOPSY-TURVY CHIEF JUDGES

By Manuel P. Asensio

1 1. ***T****opsy-Turvy Chief Judges* is based on an investigation of New York Chief
2 Judge Janet DiFiore’s private conduct while engaged in defending New York
3 County Family Court Magistrate, Adetokunbo O. Fasanya. No reporting has ever
4 been done on this matter that exposes the illegal and exalted behavior that New
5 York's liberal judges use to control children’s religious and political beliefs. The
6 entire state government, the governor, attorney general and the legislatures, is
7 deliberately and malicious denying parents access to justice using fraud, corruption
8 and deceit. No one lawyer from within the family law bar or outside of it is allowed
9 to represent a parent that is exposing the system. If they do the judges refer him to
10 the grievance committee. Self-represented parents are simply fully ignored. The
11 judges will not even acknowledge the allegations in dismissal orders.

12
13 2. The investigation uncovered the illegal methods used by the chief judge in
14 operating the state’s parental rights justice system. Parental rights are a US citizen’s
15 most protected rights. The Chief Judge does not recognize these rights and sanctions
16 corrupt judging to deny parents these rights including the fabrication of illegal fees
17 that are fabricated without notice, consent or due process. The chief judge’s scheme
18 uses these fees terminate the parental rights of any parents that attempts to avail
19 themselves of the law to enforce their parental rights.

20
21 3. The chief judge’s illegal conduct in defending Fasanya revealed the concealed
22 illegal acts she performs while administrating the state’s justice system. In all but

1 the most unfortunate cases parental authority belongs to parents not the state. The
2 chief judge's system, as the investigation shows, illegally imposes the chief judge's
3 political ideology not just on parents but on the People of New York State. Chief
4 Judge DiFiore first illegally supplants the People's authority over her through
5 violations of law that cannot be enforced against her. The Chief Judge supplants
6 the parental authority with her own political ideology. This requires extraordinary
7 levels of illegal conduct.

8
9 4. The chief judge's illegal conduct begins at the trial level in the court
10 room. Chief Judge DiFiore is responsible for training trial judges on how to deny
11 parents their due process. This is necessary to be able to deny them their parenting
12 rights. Americans do not tolerate exalted government acts or intrusion in their
13 private lives. So these denials rightfully generate enormous pain and frustration. As
14 a result, the chief judge needs to have specially trained armed court guards to
15 suppress parental opposition of her ideology. The second level of the chief judge's
16 illegal conduct is protecting the trial judge's denial of due process at the appeal
17 level.

18
19 5. Protecting and concealing this outrageous corrupt judging system from the
20 People and their elected officials is expensive. This is Chief Judge DiFiore must
21 serious illegal activity. The chief judge does not have to pay a publicist or lobbyist.
22 She uses lawyers at no cost to her free. But these agents for the chief judge are
23 actually the greatest cost of the chief judge's scheme to free society. All this
24 concealment is done to enforce Chief Judge DiFiore's political beliefs on children.
25 This is utterly intolerable in a justice system on America Soil.
